

Option D: Write and draw your galaxy

1 Invent your own galaxy

STEP 1: Invent the name of your galaxy, your Sun, planet or planets or other celestial bodies.

For example: *The name of my galaxy is **Big Deer**. It has **10 million** of star. The biggest star is **K250**. It is **big** and **red**. It has **4** planets. They are **rocky** planets. The planet **Xataka** is home to life, with water and vegetation. It has two natural satellites, the moons **Icon** and **Equity**.*
